ASACR 5

Office of the President
April 23, 2026

Members, Board of Trustees:

DELETION OF CERTIFICATE: COLLEGE OF EDUCATION

Recommendation: that the Board of Trustees approve the closure of the graduate certificate in Leadership for Deeper Learning in the College of Education.

Background: The graduate certificate in Leadership for Deeper Learning was created for experienced educators or professionals seeking to enhance their skills in fostering meaningful educational experiences. The most recent periodic program review recommended that the college evaluate and potentially condense, close or transform the graduate certificate into tracks within larger programs. Based on feedback from the periodic review, and consistently low program enrollment, the faculty have decided to close the graduate certificate in Leadership for Deeper Learning and integrate the certificate curriculum into existing MEd and EdS programs.

The proposed closure of this graduate certificate has been recommended to the Provost by the College of Education faculty given their expertise within their respective disciplines. The Provost of the University supports the program faculty's recommendation.
